

# Horse Continental, Hanover

## New Continental Headquarter

# Horse Continental, Hanover

## Facts and Figures

The DAX company is located on both sides of Hans-Böckler-Allee and thus shapes the eastern entrance to Hannover. Glass and steel play the main role in the construction. The most striking part is a bridge that connects the two halves of the headquarters. The total of eight interconnected three- to four-story buildings combine to form a Continental campus that provides space for 1,250 employees. The new headquarters offers a variety of spaces for meetings, conferences, a cafeteria and informal workplaces. Park-like outdoor facilities, a health center, and an in-house daycare center are further components of the new headquarters that ensure a healthy balance between work and leisure for employees.

### **CLIENT**

Continental AG, Hanover

---

### **ARCHITECT**

HENN GmbH, Berlin

---

### **EXECUTION PERIOD**

September 2019 until November 2022

---

### **PRODUCTS**
